FOR IMMEDIATE RELEASE

PRECINCT 67 CONSTABLE'S OFFICE LAUNCHES SPEED AWARENESS PROGRAM

Mobile, AL – The Mobile County Constable Office, Precinct 67, announces its motorist's speed awareness program. With the help of local businesses, Constable Charlie Burch has acquired a radar speed trailer. Known as a traffic calming device, the trailer uses radar technology to display a driver's current speed making them aware of excessive speed compared to the posted speed limit. The speed is displayed in 18-inch LEDs that are visible from 1000 feet away. As the habits of motorists in the area change for the better, the sign can be moved to another location.

The trailer is available at no cost to the residents of Mobile County. It can also be requested by other agencies or departments. The trailer can be used in neighborhoods, school zones, construction areas, dangerous roadways, at events, or anywhere else where motorist's speed is a concern. The trailer can be requested through the office website at [www.mobileconstable.com/speed-trailer](http://www.mobileconstable.com/speed-trailer). Businesses interested in becoming a sponsor for a month are also encouraged to contact the Precinct 67 Constable Office.

Through the speed trailer's use, we are committed to increasing the safety of pedestrians and motorists in Mobile County.
